HIGH PERFORMANCE RC
RACING PRODUCTS

RDX PHI '09

The Team Corally RDX PHI '09 spec still carries the RDX PHI name that enjoys world-wide fame for its craftsmanship and championship winning performance. Through Extreme Research & Development the Team Corally engineers have managed to further enhance the performance, durability and versatility of the RDX PHI '09.

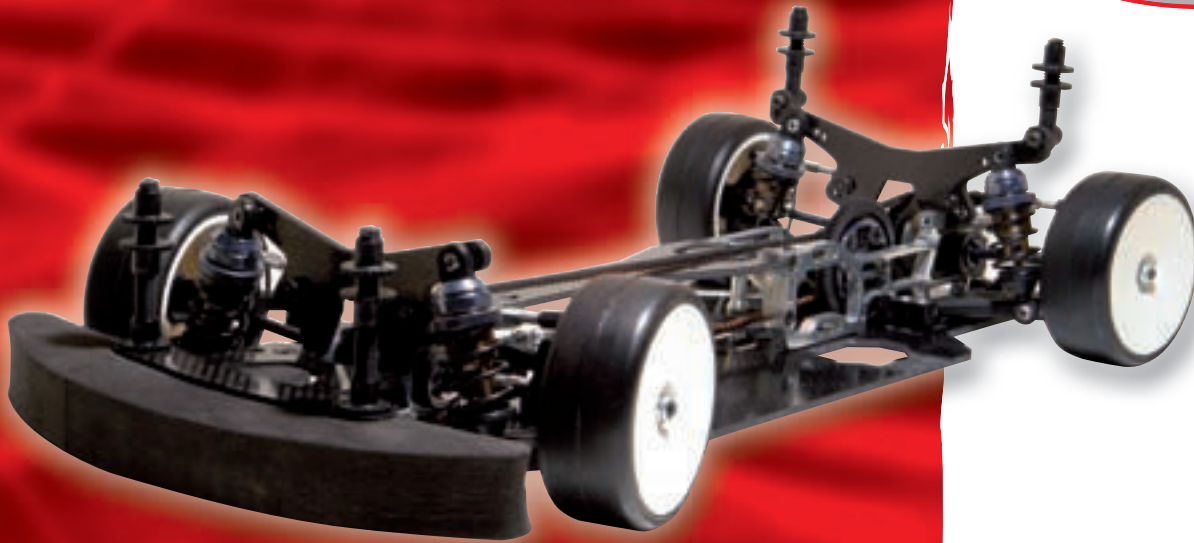

By exceeding today's expectations the RDX PHI '09 sets new standards and is born to be the ultimate high performance RC race car.

THE NEW & EXCLUSIVE PHI '09 SPEC:

- New wishbone mounting blocks for absolute secure, fast and precise (dis)assembly and easy roll center / toe adjustment.
- Designed to accept both Ni-MH or Li-Po batteries. Graphite battery strap and additional Li-Po battery holders are included in the kit.
- New High Torque differentials which use a special deep groove thrust bearing and 18 x 2.5 mm chrome steel balls to ensure smooth and long lasting diff action.
- New lightweight molded bearing holders for easy accessible diffs and adjustable wheelbase.
- New design and lightweight molded front c-hubs generating improved steering.
- New design and lightweight molded narrow rear uprights with vertically mounted camber link balls for fine roll center adjustment.
- New design and lightweight molded narrow steering blocks with longer arms and steering link position. Improved geometry and more steering.
- New design and lightweight molded steering lever with horizontally mounted steering link balls for fine Ackerman adjustment.
- Lower overall weight & chassis prepared for the optionally available super low mounted 20 - 40 gram balancing add-on weights.
- New chassis design with xtra durable graphite construction.
- Lowered front and rear roll-center making it ideal for low grip situations.

RDX PHI '09

CORALLY RDX PHI '09 'LIPO OPTIMIZED'

Part# TC01620 (US CARPET SPEC – Part# TC01621)

The new RDX PHI '09 'LIPO OPTIMIZED' comes equipped with a 100% purpose designed chassis for racing with LiPo batteries. The LiPo battery pack is securely kept in place by the special LiPo battery holders.

Since the weight of LiPo batteries is significantly lower than the weight of NiMH sub-c batteries, the chassis design has been given all necessary changes for an optimized weight balance in all conditions. This chassis does not have the common sub-c cut outs but comes with 3 weight slots positioned under the battery pack. In these slots it is possible to position 1, 2 or 3 pieces of the purpose designed balancing weights (30g each) under the battery pack. In addition to these ultra low mounted weights it is possible to position up to 3 more balancing weights (25g each) next to the battery pack. Both these brand new LiPo balancing weights are optionally available and will not only optimize chassis balance but also allows adding the required 'race legal' extra weight in an ideal position.

The RDX PHI '09 'LIPO OPTIMIZED' is also available as US CARPET SPEC configuration. This kit comes with all the proven 'CARPET SPEC' design features in addition to the above mentioned 'LIPO OPTIMIZED' specifications.

GENERAL SPEC:

- Lowest COG on the market.
- Narrowest chassis on the market.
- Adjustable wheelbase from 252 – 260 mm.
- Super high grade graphite chassis components
- Pre-shaped sub-c battery slots.
- Lowered and adjustable front and rear roll centres.
- Durable lightweight aluminium inserts throughout the kit.
- AL7075 Spur Gear Adapter with replaceable centre pulleys.
- Optional available pulleys allow changes to the internal ratio.
- The absolute highest grade aluminium AL7075 throughout the kit.
- Durable and super smooth aluminium shocks
- Pre-assembled!
- Super rigid and strong AL7075 bulkheads.
- Threaded body posts for precise body height adjustment
- All parts are precision made to the tightest production tolerances.
- Pre-assembled super smooth AL7075 diffs.
- Improved pulleys on diff, spool, 1-way and layshaft.
- Super durable and strong Hard Anodised AL7075 pivot balls.

3 CAR KITS – THE UNIQUE SPEC:

RDX PHI'09 PART# 01620:

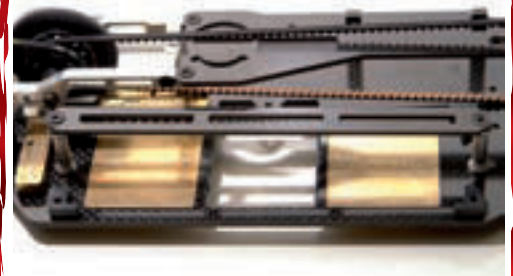

- LIPO OPTIMIZED CHASSIS 2.4 MM GRAPHITE
- FRONT ONE-WAY / REAR DIFFERENTIAL
- BLACK SHOCK SPRINGS (MEDIUM HARD)
- FRONT C-HUBS - 3° CAMBER
- FRONT & REAR WIDTH 190 MM

RDX PHI'09 PART# 01622:

- STANDARD CHASSIS (SUB-C / LIPO) 2.4 MM GRAPHITE
- FRONT ONE-WAY / REAR DIFFERENTIAL
- BLACK SHOCK SPRINGS (MEDIUM HARD)
- FRONT C-HUBS - 3° CAMBER
- FRONT & REAR WIDTH 190MM

RDX PHI'09 US CARPET SPEC PART# 01621:

- LIPO OPTIMIZED CHASSIS 2.9 MM GRAPHITE - EXTRA STIFF
- FRONT & REAR DIFFERENTIAL
- FRONT ALLOY BEARING HOLDER
- COMPLETE SILVER SPRING SET (XTRA HARD / 6 PAIRS)
- FRONT C-HUBS - 6° CAMBER
- FRONT & REAR WIDTH 190 MM

SP12X

World Champion

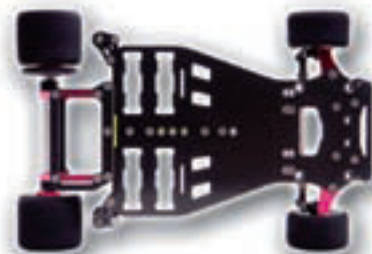

The SP12X is the result of Team Corally's unbeaten 1/12th scale racing experience. Before the release there has been a long and extensive period of development and on-track testing by multiple European, US and World Championship winning team drivers. The SP12X uses the World's best materials and production methods to be the ultimate high performance race car which combines super low weight with high rigidity and durable on-track performance. After winning the 1994 Worlds with the legendary Corally SP12G2, it was the SP12X WC that lead David Spashett to his 2006 WORLD CHAMPION title!

The World Championship winning SP12X is available in 2 different kit configurations. See below specifications and differences between all types. The SP12X WC features the proven front suspension as used by multiple World Champion David Spashett. This special edition also includes a free Corally T-Shirt and handy screw driver.

SP12X – FEATURES:

- The SP12X comes fully equipped with super strong, lightweight Titanium screws.
- Ceramic diff and thrust balls are used to provide super smooth diff action.
- The precision Ceramic front and rear wheel bearings offer long lasting ultra low rolling resistance and efficiency.
- Super lightweight and user friendly aluminium inserts are used to replace normal nuts throughout the kit. These inserts are pressed into the graphite parts providing a super rigid, tweak-free construction. Working on your car has never been this efficient ever before!
- Unique 1-piece graphite rear axle.
- The SP12X uses super high grade graphite chassis components with revolutionary pre-shaped battery slots.
- 2.0 mm GRP t-bar.
- Penta Dampening System using 2 rear tube-dampers, VCS microshock and 2 O-ring front dampers.
- Lowered and adjustable roll centres.
- Duraluminium servo mounts.
- Super rigid duraluminium motorpod using unique tube design.
- Front & rear adjustable ride height.
- Threaded body posts for precise body height adjustment.
- The SP12X comes partially assembled.
- Width: Rear 170mm / Front 166mm.
- Not included: radio equipment, body, motor, battery, esc, tires, wheels.

SP12X WC 'US SPEC'
(#00068)

- Universal 'US Standard' wheel system using lightweight duraluminium rear wheel hubs.
- World Champion front suspension.
- Extra stiff chassis with minimum cut-outs (2.4mm graphite).
- No wheels and tires included.
- Weight: 191 gram (excluding bodyshell, electronics, wheels and tires).

SP12X 'Lipo optimized'
(#00065)

- Universal 'US Standard' Wheel system using lightweight duraluminium rear Wheel hubs.
- World Champion front suspension.
- Extra stiff Lipo optimized chassis (2.4 mm Graphite) for saddle packs & 1-cell Lipo.
- No wheels and tires included.
- Weight: 205 gram (excluding bodyshell, electronics and tires).

12SL

**New
Product**

The 12SL is the latest 1:12th scale on-road racer from Team Corally.

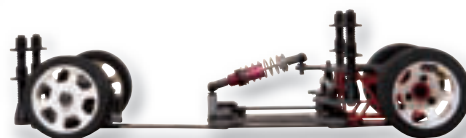

It introduces an all new rear suspension that is controlled by graphite side-links. This super smooth operating suspension combines a perfect geometry with the use of super rigid, yet light elements. All suspension parts move precisely in the required spot for 100% efficiency in following the perfect geometry design. It does not suffer from false flexing as common to other car designs.

The side-link rear suspension allows a chassis layout that is ideal for using either 1S LiPo batteries or 4-cell sub-c packs. The proven front end as used in the World Championship winning '12X David Spashett Edition' has already shown to be the ideal choice for controlling the 12SL's pure racing bred genetics. Team Corally factory driver Marc Fischer managed to improve his personal track record already in his first on-track performance! Marc says he is especially impressed by the ease he could continuously hold record breaking lap times without ever needing to push the limits.

12SL SPEC'S:

00064

- Universal "US Standard" Wheel system using lightweight duraluminium rear Wheel hubs.
- World Champion front suspension.
- Extra stiff 4-cell Sub-C / 1-cell Lipo optimized chassis (2.4 mm Graphite)
- Super smooth and new link dampening system.
- New duraluminium Motorpod design with integrate bearing holder system.
- No wheels and tires included.
- Weight : 205 gram (excluding bodyshell, electronics and tires).

F1

New Generation

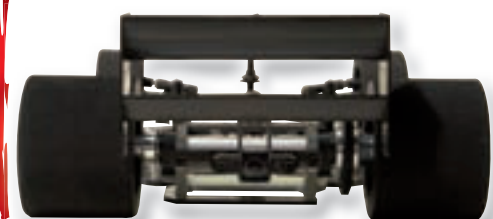

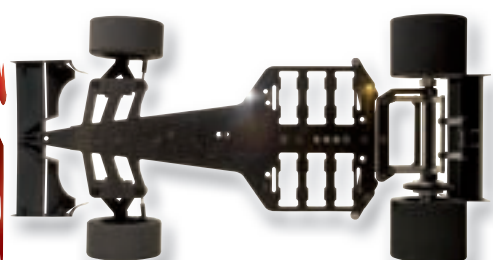

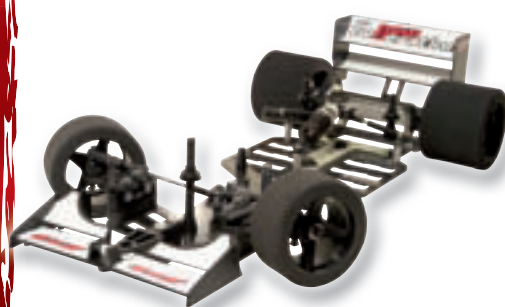

Team Corally introduces the 'New Generation F1' with all new features. This car's design is based on the World Championship winning 12X concept resulting in an easy to work on high performance driving machine. It offers great part availability since most parts on this new F1 are inter-changeable with the 12X.

The New Generation F1 uses the World's best materials and production methods which includes super tough and strong 3.2mm Dual Composite chassis parts, 7075T6 aluminium motorpod and graphite rear axle. This combines super low weight with high rigidity and durable on-track performance. It comes complete with mounted tires, F-type body and moulded front & rear wing.

New Generation F1 (#00141) FEATURES:

- Fully equipped with super strong hardened black steel torx screws.
- The precision chrome steel front and rear wheel bearings offer long lasting, low rolling resistance and efficiency.
- Super lightweight and user friendly aluminium inserts are used to replace normal nuts.
- Unique 1-piece graphite rear axle with ball differential.
- Super tough and strong Dual Composite chassis components with pre-shaped battery slots.
- Super smooth rear suspension using 2.0 mm GRP t-bar with 2 rear tube-dampers and shock absorber.
- WC front suspension as used on the World Championship winning SP12X.
- Duraluminium servo mounts.
- Super rigid duraluminium motorpod using unique tube design.
- Front & rear adjustable ride height.
- Threaded body posts for precise body height adjustment.
- The 'US Standard' 1:10 wheels run on lightweight duraluminium rear wheel hubs.
- Rear Width: 200 mm.
- Front Width: 198 mm.
- The F1-NGX comes partially assembled.

10X

New Generation

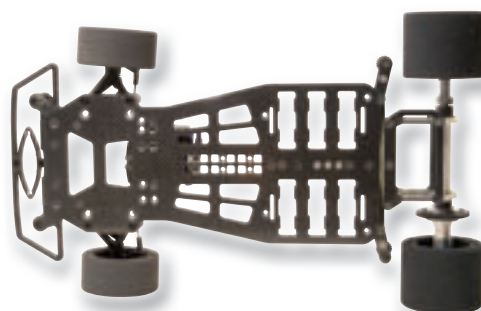

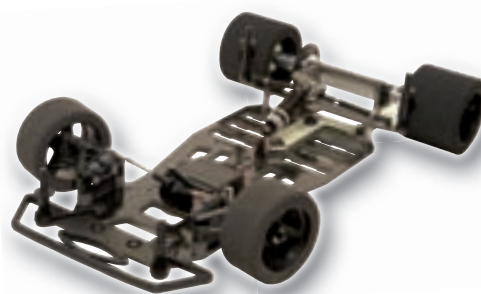

Team Corally introduces the '10X New Generation' 1/10th scale on-road racer with all new features. This car's design is based on the World Championship winning 12X concept resulting in an easy to work on high performance driving machine. It offers great part availability since most parts on this new 10X are inter-changeable with the 12X.

The 10X New Generation uses the World's best materials and production methods which includes high grade Dual Composite chassis parts, 7075T6 aluminium motorpod and graphite rear axle. This combines super low weight with high rigidity and durable on-track performance.

10X New Generation (#00146) FEATURES:

- Fully equipped with super strong hardened black steel torx screws.
- The precision chrome steel front and rear wheel bearings offer long lasting, low rolling resistance and efficiency.
- Super lightweight and user friendly aluminium inserts are used to replace normal nuts.
- Unique 1-piece graphite rear axle with ball differential.
- High grade Dual Composite chassis components with pre-shaped battery slots.
- Super smooth rear suspension using 2.0 mm GRP t-bar with 2 rear tube-dampers and shock absorber.
- WC front suspension as used on the World Championship winning 12X.
- Duraluminium servo mounts.
- Super rigid duraluminium motorpod using unique tube design.
- Front & rear adjustable ride height.
- Threaded body posts for precise body height adjustment.
- The 'US Standard' 1:10 wheels run on lightweight duraluminium rear wheel hubs.
- Rear Width: 230 mm.
- Front Width: 210 mm.
- The 10X New Generation comes partially assembled.

The 10X New Generation is also available in Narrow version with rear width 200 mm. The part number for this car kit is # 00147.

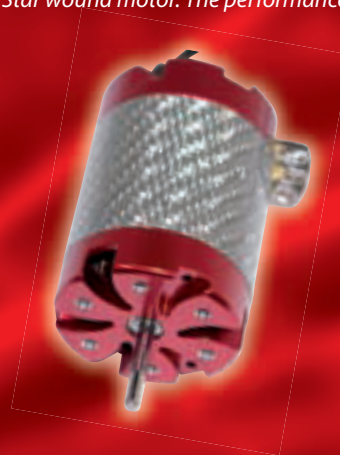

BRUSHLESS MOTORS

H-BP - MAXIMUM EFFICIENCY BRUSHLESS MOTORS:

Team CORALLY H-BP Series brushless motors use high tech woven composite housing & red anodised aluminium front & back plates with precision ball bearings. These motors are Delta wound for superior efficiency and are available in a High Torque (HT-BP) and High Speed (HS-BP) version. Both are wound on a special stator specifically designed to optimize the combination of Delta winding and sensorless technology. The HT-BP motor uses 15 turns Delta winding and offers power that is similar to an average 9 turn Star wound motor. The performance of the 13 turns Delta wound HS-BP even tops the power of a regular 8 turn Star wound motor!

- High quality super efficient brushless motors with woven composite housing & red anodised aluminium front & back plates.
- Runs on precision ball bearings.
- Trouble-free sensorless technology.
- Comes with pre-installed high power connectors (no soldering required).
- ALSO AVAILABLE WITH CORALLY BMS ESC AS COMPLETE BRUSHLESS SYSTEM. THE MOTOR & SPEEDO COME SECURILY PACKAGED IN LUXURY ALUMINIUM STORAGE CASE.

TEAM CORALLY H - BP SERIES - MOTOR SPEC

Part #	Motor	Type	Winds	Winding Type	Max Power	RPM Per Volt	Voltage Range	Approx. Weight	Total Length	Can Length	Can Diameter	Magnet Type
396130	HS - BP	Sensorless	13.0 Turns	Delta	360 Watt	3.220	6.0 ~ 7.4	155 g	65 mm	50.5 mm	36 mm	Sintered
396150	HT - BP	Sensorless	15.0 Turns	Delta	320 Watt	2.770	6.0 ~ 7.4	155 g	65 mm	50.5 mm	36 mm	Sintered

RED SERIES - MAXIMUM PERFORMANCE BRUSHLESS COMPETITION MOTORS:

The extremely powerful Team CORALLY RED SERIES brushless motors have been designed by using the very latest in brushless technology. The high power magnet rotor in combination with a special designed stator offers ultra high RPM with super smooth power control. The rotor is dynamically balanced with the highest precision for low vibration and efficiency. The stator uses super tight multi twisted wire to ensure a perfect electro-magnetic balance and minimum loss. The star wound stock motors give the unparalleled power of approximately 280 watt for the 13.5 turn and 780 watt for the 9.5 turn motor!

The Red-Series Sensorless motors use a trouble free technology that shows great performance and prevents mechanical failures caused by dirt or humidity.

- Extremely powerful brushless motors through ultra high RPM.
- Super smooth power control and high efficiency.
- The fully aluminium can and endbells offer maximum cooling.
- No heat building motor stickers are used but exclusive and super hot appealing printing directly on the can.
- THE 9.5T AND 13.5T STOCK MOTOR ARE ALSO AVAILABLE WITH CORALLY BMS ESC AS COMPLETE BRUSHLESS SYSTEM. THE MOTOR & SPEEDO COME SECURILY PACKAGED IN LUXURY ALUMINIUM STORAGE CASE.

TEAM CORALLY RED SERIES - MOTOR SPEC

			Winds	Winding Type	Max Power	RPM Per Volt	Voltage Range	Approx. Weight	Total Length	Can Length	Can Diameter	Magnet Type

BRUSHLESS MOTORS

TC PRO SERIES - MAXIMUM PERFORMANCE BRUSHLESS COMPETITION SENSOR MOTORS:

Team Corally offer a complete new line of brushless motors with sensor which are based on the same design as the extremely powerful Red Series. The TC Red Series motors use a trouble free technology that shows great performance and prevents mechanical failures caused by dirt or humidity. Because of the extremely high RPM combined with the superb torque and power control it is ideal for use in a wide variety of RC Cars from 1:10 & 1:12 On-Road and 1:10 Touring trough to 1:10 Off-Road and Monster Truck.

THE TC PRO SERIES STOCK MOTORS 10.5 T, 13.5 T AND 17.5 T ARE DMC LEGAL !

- Extremely powerful brushless trough ultra high RPM.
- Sensor provide super smooth power control and linear performance.
- The fully aluminium can and endbells offer maximum cooling.
- No heat building motor sticker are used but exclusive and super hot appealing printing directly on the can.

SPEEDO / BATTERY MANAGEMENT SYSTEM

HI-DUTY SPEED CONTROLLER

- INPUT VOLTAGE : 7.2V (Ni-Cd & Ni-MH) – 7.4V ~ 11.1V (Li-Po)
- OUTPUT - POWER IC SPEC : 54A (at 25°C) 45A (at 100°C)
- FACTORY SPECIFICATION : 360 Watt (7.2V x 50A) continuous
- MINIMUM MOTOR WINDS : 13 Turn Delta / 8 Turn Star
- BEC : 5V 2A low distortion regulator IC, 5V 1A x 2 parallel
- LOW BATTERY POWER : Auto detection
- MOSFET (INNER RESISTANCE) : 0.00166MO
- WEIGHT : 45g (Including wiring & plugs)
- DIMENSION : 50 mm x 26 mm x 16.5 mm

ELECTRONIC SPEED CONTROL FOR SENSORLESS MOTORS	PART #
CORALLY BMS Electronic Speed Control (Sensorless)	50061

PROGRAM CARD

The Corally Electronic Speed Controller comes with standard 6 cell Ni-MH set-up. With the Program Card you can change the set-up in easy steps to 5 cell Ni-MH, 7.4V or 11.1 V Lipo.

PROGRAM CARD	PART #
CORALLY Electronic Program Card for HI-Duty Speedo	50065

The extremely powerful and super efficient sensorless motors and ESC are also available as complete brushless system. The motor and high duty speedo come securely packed in luxury aluminium storage case.

BRUSHLESS MANAGEMENT SET'S	PART #
with 9.5t Star motor	50096
with 13.5t Star motor	50136
with 13t Delta motor	50052
with 15t Delta motor	50053

BALANCE CHARGER

INTELLIGENT BATTERY SYSTEM ©

MULTIFUNCTIONAL & MICRO PROCESSOR CONTROLLED

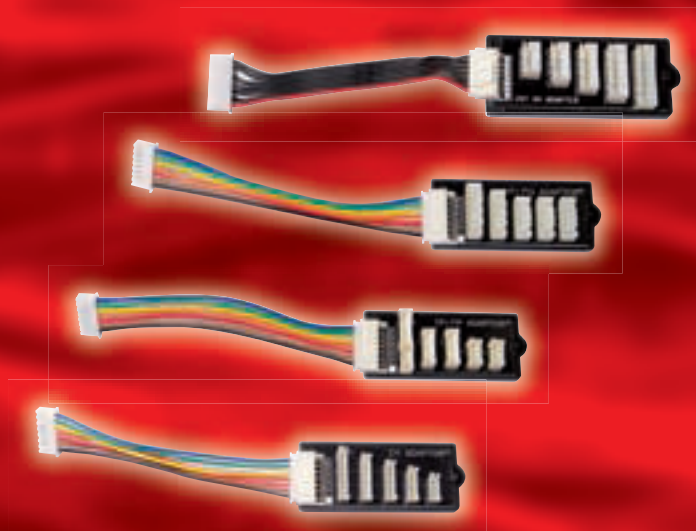

- BALANCE CHARGER (0.1A – 7.0A)
- BALANCE DISCHARGER (0.1A – 5.0A)
- CONDITIONER - OPTIMISED BATTERIES FOR STORAGE OR RACING AT ALL TIME!

INCLUDING:

Temperature Sensor / Multifunctional Connector Cables / USB Cable / Separate Balancing Voltage Detector

IBS FEATURES:

- FAST CHARGER : 0.1A – 7.0A (Balanced)
- DISCHARGER : 0.1A – 5.0A (Balanced)
- CHARGING RANGE : 2.0 – 36.0 Volt
- BATTERY TYPES : LiPo / LiLo / LiFe (1 - 8 cells)
: NiMH / NiCD (1 - 27 cells)
: Lead Acid (2.0 – 36.0 Volt)
- MEMORY SETTINGS : For 10 different models
- TEMPERATURE DETECTION : By magnetic temperature sensor (included)
- VOLTAGE DETECTION : By separate balancing voltage detector (included)
- CONNECTING : Through multifunctional extension cable (included)
- INTERFACE : USB communicated analysis (USB cable included)

New Product

NI-MH BATTERIES

INTELLECT

INTELLECT has been the dominating battery manufacturer at championships all over the World. The IB4600SHV Super High Voltage is a pure competition battery. Intellect Batteries are well known for their reliability and consistency. Their top performing battery is the EP4600.

INTELLECT 4600 (NI-MH SUB-C CELLS)	PART #
IB4600SHV - Single Cell (Sub-C)	46201
IB4600SHV - Race Matched (6-Cell)	46265
IB4600SHV - Race Matched (5-Cell)	46267
IB4600SHV - Factory Team Matched (4-Cell)	46224
IB4600SHV - Factory Team Matched (6-Cell)	46225
IB4600SHV - Factory Team Matched (5-Cell)	46227
IB4600SHV - OEM Stick (6-Cell Stick Pack)	46296

INTELLIGENT 2/3, FOR AA & AAA BATTERIES

The latest edition of IB 2/3A single cell is a 1600mAh High Discharge Type called IB1600. Also available as IB1600 receiver pack Ni-MH 6.0V (2/3A 5-cell Hump pack) - High Discharge Type.

INTELLECT AA / AAA BATTERIES	PART #
IB750 - AAA Single Cell 750mAh - High Discharge	IB750
IB2000 - AAA Single Cell 750mAh - High Discharge	IB2000

INTELLECT 2/3A BATTERIES	PART #
IB1600 - 2/3A Single Cell 1600mAh	IB1600
IB1600 - 2/3A Hump Pack 1600mAh 6.0V (5-Cell)	IB1600H
IB1600 - 2/3A Stick Pack 1600mAh 6.0V (5-Cell)	IB1600S5
IB1600 - 2/3A Stick Pack 1600mAh 7.2V (6-Cell)	IB1600S6

CORALLY 3600HP & 4600UP NI-MH BATTERIES

Team Corally MATCHED packs have enhanced voltage and were processed on the ultra precise CORALLY VRS (Virtual Race Simulator) battery matching machine. Corally RACE packs offer great performance at economic pricing. Corally FACTORY TEAM packs exclusively use hand picked cells for world beating performance. All matched Corally battery packs come complete with soldering bars and connector tubes.

Team Corally Ni-MH batteries are high performance batteries that combine high voltage, low resistance and high capacity with superb durability. The NEW Team Corally 4600UP 'ULTRA POWER' batteries use the very latest Ni-MH technology which has taken reliability and performance to the next level.

CORALLY 4600 (NI-MH SUB-C CELLS)	PART #
CORALLY 4600UP - Single Cell (Sub-C)	45301
CORALLY 4600UP - Race Matched (6-Cell)	45365
CORALLY 4600UP - Race Matched (5-Cell)	45367
CORALLY 4600UP - Factory Team Matched (4-Cell)	45324
CORALLY 4600UP - Factory Team Matched (6-Cell)	45325
CORALLY 4600UP - Factory Team Matched (5-Cell)	45327

CORALLY 3600HP - OEM Stick (6-Cell Stick Pack)	45096
CORALLY 4600HP - OEM Stick (6-Cell Stick Pack)	45396

CORALLY HIGH POWER CONNECTORS & SOLDERING BARS

Corally gold connectors are the best connectors available for competition model racing cars. The connectors are gold plated and have a very large contact surface and can therefore handle the currents required by today's top level competition motors. The Corally double plugs feature super small lightweight design and total polarity protection. Corally plugs with twisted laminates offer up to 30% improved efficiency! The heavy duty battery soldering tags minimise voltage losses.

Corally Battery Connectors
Traditional laminates (10 Sockets/2 Plugs) #1630
Twisted laminates (10 Sockets/2 Plugs) #1640
Battery Sockets #1631
Traditional laminates Plugs (3 pcs) #1634
Twisted laminates Plugs (3 pcs) #1644

Corally Wire Connectors (6+2 pcs)
Straight Laminates #1632
Wire Sockets only (6 pcs) #1633

Battery Soldering Jig - Black
For sub - c cells #1800

Corally Double Plug (1 Pair)
Traditional laminates #1635
Twisted laminates #1645

Corally Soldering Tags (10 pcs)
Soldering Tags #1750
Soldering Tags - Extra Heavy Duty, Silver #1752
Battery Assembly Set (5 Tags / 2 Sockets) #1636

LIPO BATTERIES / BATTERY (SAFETY) BAG

Team CORALLY offers a range of the World's very best Li-Po batteries. Corally Li-Po batteries are much lighter than Ni-MH sub-c batteries and offer far superior power. The voltage at 0-load is only 0.2 Volt higher but Corally Li-Po batteries have a close to non-existing internal resistance. Especially when pulling high currents of over 100 amps the voltage of Ni-MH batteries will collapse but Corally Li-Po's still keep the voltage at a far superior level. During discharge Team Corally Li-Po batteries will stay much cooler and offer unmatched efficiency, acceleration and top speed. They are much lighter, require less maintenance and offer up to 10 times longer life!

Team Corally Li-Po batteries are ROAR and EFRA legal. They come in a safe hardcase which helps prevent the battery pack from getting damaged. They come equipped with High Power connectors and are available in Stick and Saddle pack configurations.

CORALLY LIPO BATTERY PACK WITH HARD CASE	PART #
4200mAh Lipo – Stick Pack (7.4 Volt / 30 C)	48242
5000mAh Lipo – Stick Pack (7.4 Volt / 25 C)	48251
5200mAh Lipo – Stick Pack (7.4 Volt / 40C+)	48252
4200mAh Lipo – Saddle Pack (7.4 Volt / 35C)	48243

INTELLECT LIPO BATTERY PACK WITH HARD CASE	PART #
5000mAh Lipo – Stick Pack, 1 cell (3.7 Volt / 40 C)	48235
4000mAh Lipo – Stick Pack, Tamiya style (7.4 Volt / 20 C)	48240
5000mAh Lipo – Stick Pack (7.4 Volt / 40C)	48245
4200mAh Lipo – Saddle Pack (7.4 Volt / 30C)	48244

The TEAM CORALLY "BATTERY GUARD BAG" is designed to reduce the risk of possible damage in event of a battery fire. The intended use is with LiPo batteries but this safety Guard Bag may also be used for other types of batteries with similar composition and characteristics.

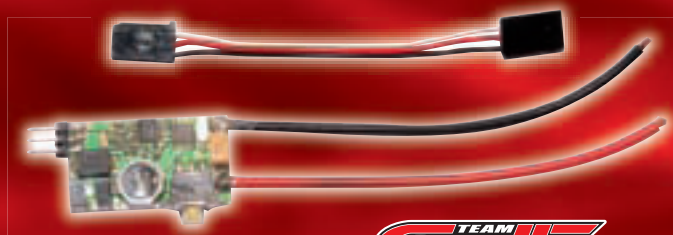

LIPO CHARGER BAG	PART #
Battery Charge Guard	48300

V-BOOSTER

The Team Corally V-Booster is specially developed for use with 1S (1-cell) LiPo battery packs. The voltage is being increased to 6 volts and offers consistent power for normal operation of your receiver, speed control and servo.

- Consistent voltage and power during the entire run.
- Super small and lightweight construction. Total height of only 7.5 mm including switch (5.5 mm without switch)!
- Surface mounted On/Off switch for clean installation and minimum wires.
- Complete with universal JST receiver plug.

VOLTAGE BOOSTER	PART #
V-Booster – recommended for use with all 3.7 Volt Lipo's	48290

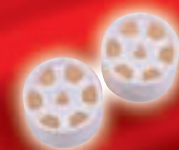

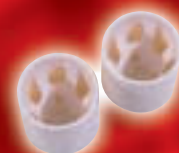

TOURING TIRES & WHEELS

- Team Corally have used their experience and knowledge to bring you a world beating range of tires.
- All foam tires are also available onto wheels, ground to run and with an excellent surface, sealed in airtight packing.

Team Corally also offers a range of Take-off and RP Rubber Touring tires, Touring Dish wheels in hard and x-hard as well as JB and Corally inserts. Please check our website for the complete range of Team Corally products.

TIRE TRACTION & TIRE WARMERS

DO YOU KNOW...

TEAM CORALLY TIRE ADDITIVE

Team Corally introduces all Team Corally traction compounds TC1 to TC5 in brand new cans with Smart Dauber Application. Applying the traction compound has never been smoother than ever before! All of the obsolete bottles and cans with brushes and sponges and their part numbers will be replaced by the new cans with Smart Dauber Applications and their new part numbers.

TC1 Part# 13761 (150ml can)

TC1 is the classic tire additive for foam carpet racing.

TC2 Part# 13752 (60ml can) / Part# 13762 (150ml can)

TC2 'JACK THE GRIPPER' is odourless and EFRA legal. This is the World's #1 tire additive and offers superb grip with rubber & foam tires on any track surface.

TC3 Part# 13763 (150ml can)

TC3 is specially formulated for foam tire outdoor use.

TC4 Part# 13754 (60ml can) / Part# 13764 (150ml can)

TC4 'Carpet Jack' is odourless and provides maximum grip for rubber carpet racing.

TC5 Part# 13755 (60ml can) / Part # 13765 (150ml can)

Tweak your rubber tires with TC5 'ASPHALT JACK' tire additive for maximum grip on outdoor racing tracks. It is odourless and completes the range of Team Corally tire additives to ensure best performance in all conditions.

TEAM CORALLY TIRE WARMERS - GET GRIP!

- Professional tire warmers for 1/10th scale rubber tires as used by Factory Team Drivers all over the World.
- Pre-heated tires generate more grip and faster lap times.
- Temperature regulated and conveniently powered by 7.2V Ni-MH, 7.4V Li-Po battery pack or 12V DC power supply.
- Tire Warmers are also widely used in full scale racing. The zigzagging of cars before the start shows the importance of warm tires.

TEAM CORALLY TIRE WARMER SPEC :

- PART NUMBER : 13800
- USE : Most 1/10th scale rubber tires
- WEIGHT : 183 gram
- INPUT VOLTAGE : 7.2 – 12.0 Volt
- TEMPERATURE RANGE : 36 – 42°C (At 7.2 – 7.4 Volt)
5 – 68°C (At 12.0 Volt)

GEARS

- Team Corally gears include precision machined super efficient pinions and spur gears as well as highly durable moulded spur gears.
- All Corally gears are designed to give "true tooth form" for whisper gear mesh and maximum efficiency.
- They offer superb durability and long lasting efficiency by using the best materials and latest technology in surface treatment.
- Corally gears are available in a strong 48 pitch tooth size as well as a finer 64 pitch tooth size. The finer tooth form of the 64 pitch gears give higher efficiency but also make it more fragile and requires precise adjustment. We recommend 48 pitch gears for beginners and parking lot racing.

TEAM CORALLY PINIONS:

- The pinions are available in universal 'short boss' design and special 'long boss' design for applications with greater distance from the motor to the spur gear. This includes all Team Corally 2WD pan cars (12X, 12SL, 10X, F1, etc.). The longer shaft offers extended support of the pinion on the motor axle for true rotation and increased efficiency.
- The hardened steel pinions offer best durability and will keep the important true tooth shape and great efficiency throughout it's life. The special Teflon coated 7075T6 lightweight pinions give high strength to weight ratio and unbeatable efficiency.

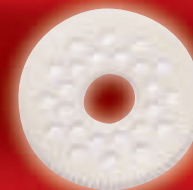

STARFORCE SPUR GEARS - UNBEATEN DURABILITY:

- Team CORALLY 'STARFORCE' spur gears are molded from super tough self lubricating Nylon Molybdenum. They are produced to give true tooth form for whisper quiet drive, efficiency and unbeaten durability. STARFORCE spur gears are available in 48 and 64 DP. The finer tooth form of the 64 DP spur gears give higher efficiency but also makes it more fragile and is not recommended for parking lot racing.

PRO-DELTRIN SPUR GEARS - IDEAL FOR BRUSHLESS!

- Team CORALLY 'PRO DELTRIN MACHINED' spur gears are designed with 2 rows of holes for using 12 pcs of 1/8" balls in each row. The high number of diff balls enables higher torque without slipping of the differential. This makes them ideal for use in combination with Brushless Motors. Team CORALLY PRO DELTRIN MACHINED spur gears are precision machined to the tightest tolerance. The combination of precision machining and super tough, self lubricating Delrin results in durability, superb efficiency and whisper smooth operation. The low rotating mass of these extremely thin and light spur gears further improves efficiency and offers faster throttle response.

SUPER GLUE

13090 (20 ML)

- Team Corally cyanoacrylat super glue is super thin compound which offers superior bonding strength and maximum shelf life.
- Comes in an improved and extra large 20gram bottle with long Spout for easy application.
- Comes with a needle in the cap to prevent from clogging.

THREADLOCK

13095 (10ML)

- Team Corally Thread Lock for secure locking of all screws and nuts on your racing machine.
- New large bottle (10ml) with long spout for easy application.
- The aluminium coloured PE bottle offers maximum shelf life.

BEARING OIL

13067

- Super thin, special low friction formulation.
- Perfect for bushings, bearings and other stuff you want to lubricate.
- Turn the special "Twist Nozzle" counter clockwise for adjusting the dispensing dosage.
- Turn the special "Twist Nozzle" counter clockwise to tightly shut the opening – LEAKFREE !

DAMPERSYRUP

80000 Medium (red) / # 80001 Hard (blue) / # 80002 Extra Hard (white)

- Superior damping properties.
- Silicone based for highest viscosity stability.
- Low damper maintenance.
- Available in medium, hard & x-hard damping options for fine damper tuning.
- Better lubrication = less wear = higher efficiency.

DIFF LUBE

80010 White – for use on the main diff balls / # 80015 Black – for use on the thrust bearing

- Super smooth Diff action.
- Lowest Differential friction = Highest efficiency.
- Improved Diff balls, Diff washers & Thrust bearing life.
- Lower Differential maintenance.
- 20 mm wide – 1.8 m roll.

SERVO SAVERS

- Corally offers the world's most popular servo savers.
- The small servo savers are advised for 12th scale only.
- The medium & large servo savers are ideal for 1/10 and gas touring cars.
- See below chart for your ideal choice.

PART #	ITEM	SIZE	COLOUR	SERVO	FUTABA	SERVO BRAND SANWA / AIRTRONICS / KOPROPO	HITEC

PIT GEAR & WEAR

HAULER BAGS

- # 90250 Hauler Bag (51x25x45 cm)
- # 90251 Trolley Hauler Bag (51x25x45 cm)
- # 90255 Replacement Box (51x25x14 cm)

- Team Corally Hauler Bags give every racer that authentic Factory Driver look. Pack up all your Corally gear in this stylish black bag.
- The all new Corally Trolley Hauler Bag features a cool retractable handle and smooth trolley wheels.
- It has the size of 51x25x45 cm and features two external side pockets and one internal pocket in the zipped opening.
- Including one cardboard box for stabilisation and three storage boxes with plastic grips.

TRANSMITTER BAG

- # 90270 Radio Bag (34x24x12cm)

- The stylish transmitter bag is designed to match Corally Hauler Bags.
- The universal design fits all standard Radios.
- It has an internal pocket to carry your Team Corally crystal case.

POWER CASES

ALSO FOR BRUSHLESS MOTORS

- # 90210 Motor Case
- # 90220 Motor & Battery Case
- # 90225 Brushless Motor Case
- # 90230 Assortment Case – Large
- # 90231 Assortment Case – Small
- # 90280 Armature Storage Tube

Make your choice out of the 3 different Corally Power Cases. These aluminium cases come with High Quality Foam inserts for professional storage of your R/C equipment. The New Brushless Motor Case is specially designed to carry Brushless Motors & Motor Parts.

CRYSTAL CASE

- # 90200 Crystal Case Black

- The Crystal case stores up to 8 crystals with TX casing or 16 without.

PIT TOWEL

- # 90230 TEAM CORALLY Pit Towel (50x100cm)

- Create a professional pit space.
- Protect your bench or table.
- Prevent parts from bouncing and rolling off your table and absorb liquids spilled.

RACE WEAR

- All wears are printed with stylish Corally logo designs.
- The caps are embroidered with Corally Logo
